### **DETAILED ACTION**

This application is in condition for allowance except for the presence of claims 8-12 to an embodiment non-elected without traverse. Accordingly, claims 8-12 have been cancelled.

#### ***Reasons for allowance***

The following is an examiner's statement of reasons for allowance: Admitted Prior Art (APA), Cook et al. (6,022,791) and Chiang et al. (5,817,572) appear to be the closest prior art reference. APA, Cook et al. and Chiang et al. do not teach or suggest, considered singularly or in combination, at least the limitation of a guard ring pattern having a groove and a conductive wall changing direction repeatedly and alternatively in a plane parallel to the substrate in one of a triangular wave pattern and a rectangular wave pattern.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
